

18 September 1964

MEMORANDUM FOR THE RECORD

1. General Charles L. Bolte, USA, Retired, called to say four Russian "tourists" have been invited to the United States for a visit by the Arms of Friendship organization. General Bolte did not expect this to be any problem but wanted to be sure that we were aware of it. He advised that he will be meeting tomorrow with Governor Harriman in this connection, and that if any problems developed he would be in touch with us again.

2. I told General Bolte that we were aware of the visits and that as far as I knew it gave us no problems but that I would check with the appropriate people here.
